

Take a look at Horace Mann's Single Premium variable annuity program

An annuity offers some significant features and guarantees. As life expectancies increase, a key retirement concern is outliving your money. With an annuity you have the opportunity to choose lifetime income options, which would supply you with income you are guaranteed not to outlive. In addition, if you die before you retire, the guaranteed minimum death benefit provides some safeguards for your family. With a Horace Mann Life Insurance Company Single Premium variable annuity you get that and more.

Horace Mann has partnered with a number of well-known investment firms to provide a full range of investment options that span a wide spectrum of investment styles. From large company growth to bond options, we can help match your personal investment comfort level with the appropriate investment options. You can re-allocate your money, use dollar-cost-averaging, or use systematic rebalancing to maintain your desired investment strategy. You can also allocate contributions to a fixed account with a guaranteed interest rate.

Keep a long-range outlook

A variable annuity is an insurance product designed to help meet retirement needs and should be seen as part of a long-term retirement plan. However, we understand investors may want to monitor the performance results of the investment options available within our variable annuities. Therefore, we provide these monthly performance updates. Returns prior to the inception date of the investment option are based on the previous performance of other share classes of that investment option. This performance is representative of what the investment option would have produced because all share classes of an investment option invest in the same portfolio of securities.

Take a few minutes to review the results; we caution you to not make a purchase or allocation decision based solely on the numbers in the following tables. You may be tempted to try to chase the investment options providing the best current results. However, for that to work, you have to be right twice. You have to know when to start investing in an option and when to stop. Those are tough calls, even for professional money managers. Stock market and individual investment option performance often comes in spurts easily missed while you're waiting for just the right time to make changes.

At Horace Mann, we recommend you keep a long-range focus, as annuities are long-term investments, and work closely with a Horace Mann representative to keep your goals and risk tolerance in sync with your investment option choices.

Investment options performance as of June 30, 2021

These tables reflect the three-month return and average annual rates of return for each investment option within the Single Premium program. All results for periods prior to the stated inclusion dates are hypothetical performance, and the results after those dates are actual performance of the investment options in the Single Premium program.

The three-month return and average annual rates of return assume premiums were paid as of the beginning of the period indicated. The three-month return and average annual rates of return of each variable subaccount were adjusted for a 1.35 percent mortality and expense fee until March 1, 1999 when the fee was reduced to 1.25 percent. This product includes an annual maintenance fee of \$25 while the account value is less than \$10,000 and the following surrender charges: year one, 5 percent; year two, 4 percent; year three, 3 percent; year four, 2 percent; year five, 1 percent; and falling to 0 percent by the sixth year of the contract. Surrender charges apply to the account value withdrawn.

All returns in the tables below are based on a \$10,000 investment; however, the annual maintenance fee has been deducted in calculating all returns. You should refer to your contract for your specific fees/charges. Contracts issued with lower fees/charges could experience more favorable returns. The returns measure past performance and do not guarantee future results. The actual experience may vary based on the amount of the premium and the date premium payments were made. The investment return and value of a variable annuity will fluctuate, depending on the performance of the selected investment options, and the value of the variable annuity may be worth more or less than the original investment when withdrawn. Current performance may be higher or lower than the performance data quoted. Monthly performance updates may be found by visiting horacemann.com. Go to the Financial Services section, click on "Learn more about Annuities" and then click "Monthly Investment Options Performance" under the "Annuity Resources" section on the right and scroll to Single Premium.

The results in the two following tables include performance results for investment options for time periods prior to their inclusion in the contract. These results for periods prior to inclusion are calculated as if the options were part of the contract during those periods to provide historical perspective on the options and are not actual performance in the contract.

Return if money remained invested

The results in the table below represent the return if all money remained invested in the contract at the end of the applicable time period. They reflect the mortality and expense fee and the annual maintenance fee. Because the money remained invested, they do not reflect surrender charges.

Single Premium contract information

More information about Horace Mann Life Insurance Company, Single Premium and the underlying investment options of Single Premium, including the charges and expenses, can be found in the current prospectuses. You can receive prospectuses from your Horace Mann representative, by calling 800-999-1030 or via our Web site horacemann.com. You should read the contract prospectus and the underlying investment option prospectuses carefully and consider the investment objectives, risks and charges and expenses carefully before you invest or send money. Horace Mann Life Insurance Company underwrites these variable annuity contracts, which are offered by Horace Mann Investors, Inc., member [FINRA](#). Horace Mann Investors, Inc. is located at #1 Horace Mann Plaza, Springfield, IL 62715. As with all securities, variable annuities are subject to market volatility and involve a risk of loss, including loss of principal.

Due to market volatility, short-term returns may not be indicative of longer-term results. While all investing involves some risk there are greater risks associated with investing in small size companies, mid-size companies, international securities, high-yield bonds and socially responsible portfolios. These risks are presented in detail in the prospectuses.

Non-qualified annuities offer the benefit of potential tax-deferred growth. While an annuity is not required in order to obtain tax deferral within a qualified retirement plan, an annuity offers additional benefits, including those stated above. In order to offer these benefits, there are additional charges and fees included in the annuity.

Distributions from an annuity may be subject to federal income taxes. In addition, there may be a 10% penalty tax on distributions withdrawn before age 59½. The IRS restricts distributions from 403(b) annuities before age 59½ and 457(b) eligible annuities before age 70½ and they may be further restricted by your employer's plan document.

The guarantees in this contract are provided by Horace Mann Life Insurance Company and are based on the financial stability of the company.

An investment in the T Rowe Price Government Money Market Portfolio is not guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Portfolio. The yield quotation more closely reflects current earnings than the total return quotations.

Wilshire Associates Incorporated became the investment advisor for the Horace Mann Mutual Funds variable investment options on March 1, 1999. The advisor and/or sub advisors managing these Funds' assets have varied over the periods shown. Please see the prospectus for additional details. On Sept. 30, 2004, sponsorship of these Funds was transferred to Wilshire Associates Incorporated, and the names of the Funds were changed to Wilshire VIT. On September 19, 2014, the Wilshire VIT Equity Fund, Wilshire VIT Income Fund, Wilshire VIT Socially Responsible Fund, Wilshire VIT Small Cap Fund and Wilshire VIT International Equity Fund were merged into the Wilshire VIT Balanced Fund, and the name of the Wilshire VIT Balanced Fund was changed to the Wilshire VIT Global Allocation Fund. On December 7, 2018 the Wilshire VIT 2025 Fund, Wilshire VIT 2035 Fund and the Wilshire VIT 2045 Fund were merged into the Wilshire VIT Global Allocation Fund.

The variable investment option names in the tables may not match the names in the footnotes due to abbreviations.
